And my email WAS down again! Fortunately I can “fix” it be restarting. It seems to happen at 3PM my time every night—the exact worst possible time.

Hi Tim! Just when you thought it was safe...more data!! 😊

This needs to posted to this page: <http://www2.epa.gov/goldkingmine/gold-king-mine-data-august-13-2015>

No messaging, just this update: UPDATE from August 16, 2015: Validated sampling data for the Animas and San Juan Rivers from the Northern Border of New Mexico to Navajo Nation collected from Aug. 11, 2015.

David-this was unexpected on my end. Do you need to do additional outreach on it? Or just post in our statement tomorrow?
